# THE ART OF LOGISTICS

We, RusCargo Transport und Logistik GmbH, are your competent partners for all issues of global carriage of freight.

The focus of our management philosophy is our customer; he gets customized, intelligent and innovative logistic services at highest standard.

In view of the quantity of cargo we deal with in Europe and worldwide precise planning and organization of the individual transport and warehousing tasks is indispensable.

Our qualified network of subsidiaries guarantees optimum transfer. We offer maximum speed and flexibility in order to grant our customers the ideal and trade-specific transport of any cargo.

By means of our computerized dispatch procedures our customers are at any time in a position to get up-to-date information of each individual order. Our business activities range from global transport via warehousing to different added value services.

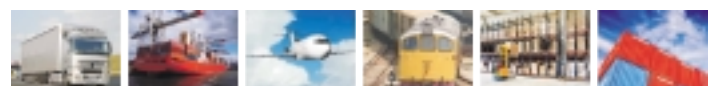

Many small and medium-size companies as well as numerous German and international corporate groups have relied on our logistic experience and flexibility for several years. Today our constantly growing client base comprises companies of many industrial sectors.

Our experienced, multilingual team facilitates precise planning and organization of all national and international logistic functions.

Personal contact to our customers, controlled certification and our excellent network permit specialized transport solutions of highest efficiency.

See for yourself that the standard of our services is beyond average and that our competence is convincing.

Ruscargo Transport & Logistik GmbH  
We are experts in the art of state-of-the-art logistics.
